UMC Stainless Steel

UMC-460-3 Stainless Steel Fixed Chock

The UMC-460-3 is a robust, polished stainless-steel fixed chock suited for marine mooring operations with 65 ton capacity. It ensures safe and effective handling of large mooring lines while minimizing chafe.

A304 Stainless Steel

Features

Material & Construction

- Made of 100% A304 stainless steel, engineered for durability and corrosion resistance in harsh sea environments.

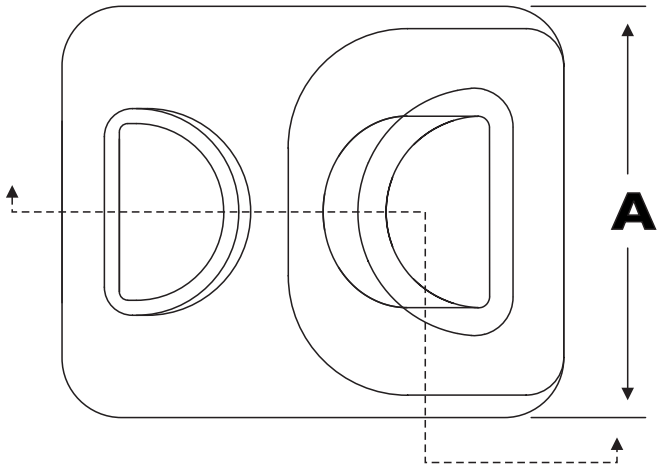

Design & Use

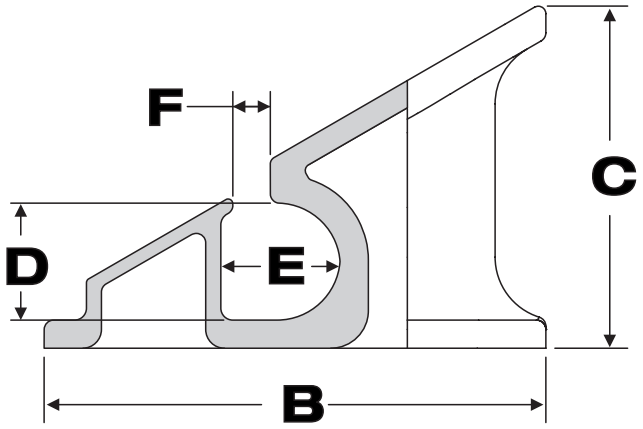

- The chock is fixed (non-rotating) and typically mounted on deck. It provides a smooth, high-polish surface to prevent rope wear and reduce friction.
- Compact, low-profile design conserves valuable deck space

Mounting:

- Typically secured to deck structure; trunnion-style or fixed pad installation.
